GraphOn Announces Authorization to Initiate \$1 Million Stock Repurchase Program

SANTA CRUZ, CA, USA – January 8, 2008 – GraphOn Corporation (OTCBB: GOJO.OB), a leading worldwide developer of server-based application publishing and Web-enabling software solutions, announced today that its board of directors has authorized a program to repurchase up to \$1 million of the company's common stock.

"GraphOn's share repurchase program reaffirms our confidence and optimism in the long-term future of the company," said Bob Dilworth, GraphOn's president and chief executive officer. "The company's cash position allows us to implement a repurchase program while still providing capital for future development of our products."

The company will make determinations regarding stock repurchases from time to time, and such repurchases, if any, will be made through the open market or through privately negotiated transactions in compliance with SEC Rule 10b-18. Purchases may be increased, decreased or discontinued at any time without prior notice. The repurchase program does not obligate the company to repurchase any specific number of shares and may be suspended or terminated at any time at management's discretion.
